ABOUT ELLEN

Ellen's organizational clients are supported holistically through change work with integrated mindfulness and intentional focus on whole-person meeting support. Please see her [resume here](#) for selected consulting works.

Ellen's coaching clients have the benefit of her professional background in transformative change work and as an intuitive working at an energy level. She brings her full skills together for her 1:1 clients to support them in scaffolding the skills and supports they need to reach their goals.

Ellen's intuitive reading clients get a deep and profound "hello" to the spirit of them in present time. She reads energy for where they are learning and growing. Her readings are descriptive and not prescriptive. She doesn't do doom and gloom nor pretend to see the future. Ellen sees the person in the here and now and shares opportunities for what next steps might be for their unique situation. Curious? [Learn more about intuitive readings here.](#)
